We make data work

Software
developers in the
Agri & Food
industry

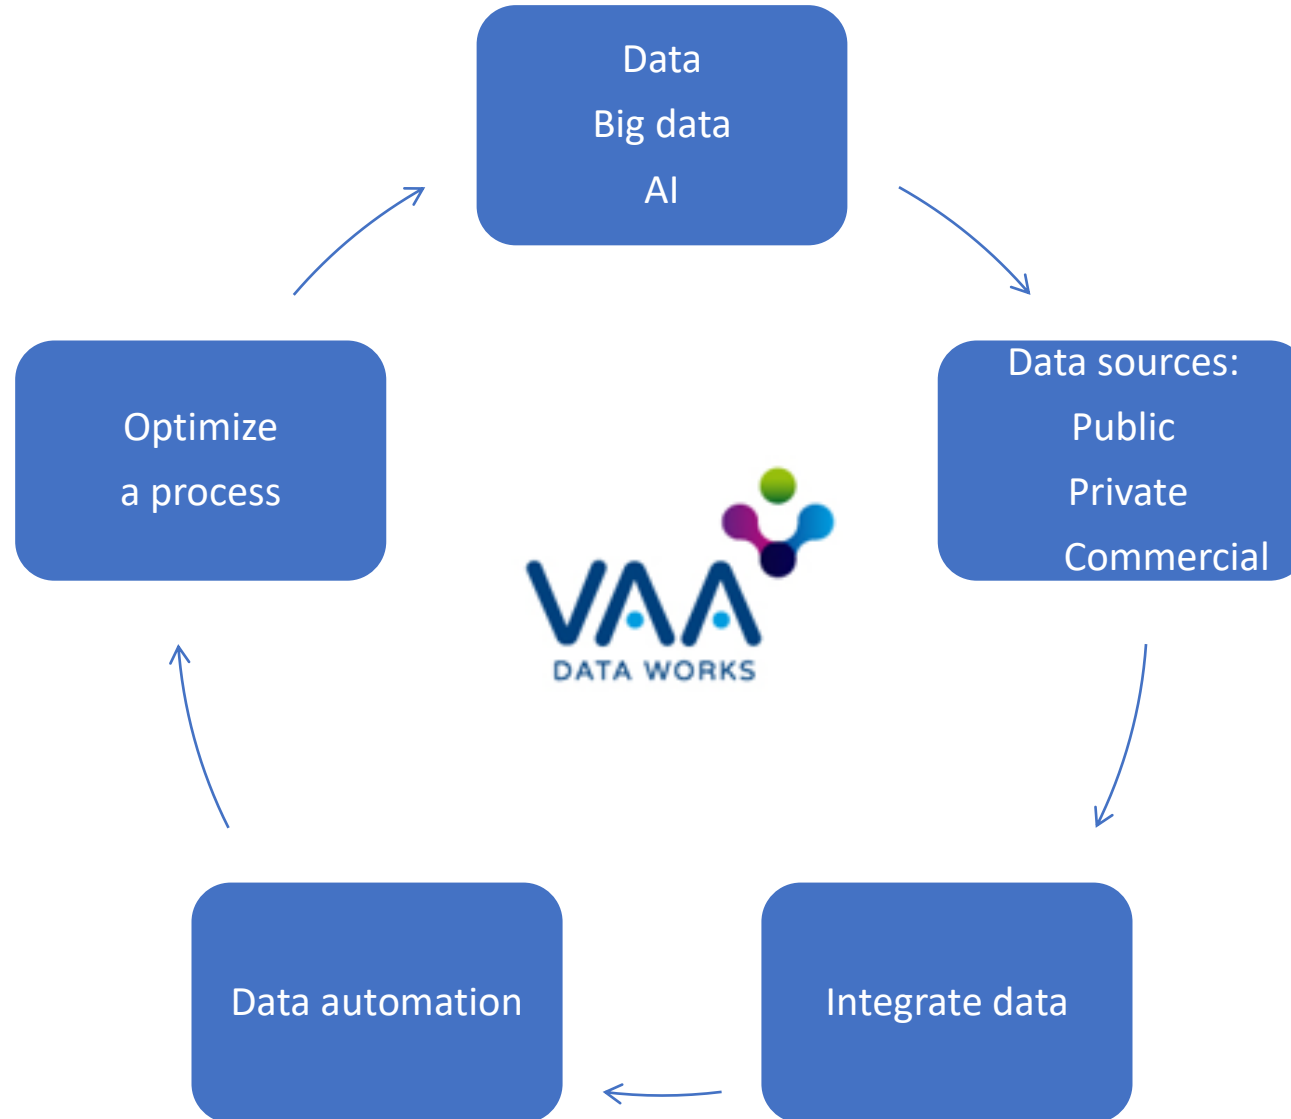

Over 30 years of
experience and
expertise in
Agriculture

65 professionals
working in
Rosmalen &
Zoetermeer

We make data work!

Examples

- **Biodiversity monitoring dairy farming**
 - Integrate Key Performance Indicators
 - Optimize the process of data integration from different sources to contribute to SDGs.
- **Carbon credit market platform**
 - Integrate Remote sensing data
 - Optimize the process of selling and buying Carbon to contribute to Net zero.
- **Smart crop**
 - Integrate data from IoT, IsoBus,...
 - Optimize the process of data integration to contribute to sustainable soil management.

A close-up photograph of a green plant stem, possibly a grass or reed, covered in numerous small, clear water droplets. The stem is the central focus, with a soft, out-of-focus background of more greenery. The lighting is bright, highlighting the texture of the plant and the glistening water.
