

Our focus.

Solar Arrays

Launcher Structures

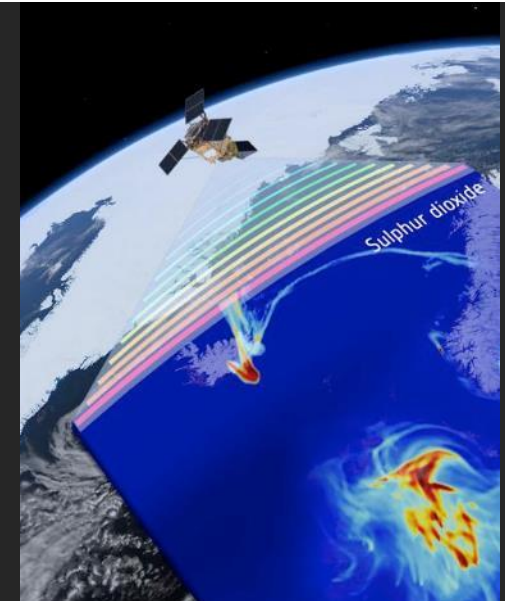

Instruments

Laser Satcom

Climate and Air Quality

Technologies in the coming period

Area	Technology	Programme / partners
Solar Arrays	Low-cost, high-power SA for constellations	Satellite integrators PVA providers, substrate manufacturers,
Laser Satcom	QKD ground stations Feeder links Air terminals	WP 23-24; operators, system integrators, technology providers
Instruments, Climate and Air Quality	Constellations, methane detection	Satellite (equipment), science, technology providers
Launchers	Multi-engine / reusable structures	European Launcher industries; small launchers as well as large launcher evolution
